Bergen - Norway

SHORE EXCURSIONS

BGO-002 / S.A.L.T. Island Fjord Taste

Difficulty

Price: \$1299 - Duration: 5.00 hr(s) Start 10:00 AM

Explore the exquisite beauty surrounding Bergen as you enjoy a leisurely boat ride taking you to a remote island where your chef awaits you for a memorable culinary adventure with tastes from the fjord.

Sustainable Seafood

Sustainable seafood is at the core of Bergen's cultural identity and development, and is also reflected in the traditional and coastal gastronomy. The most recent food trend defining the culinary landscape is returning to less complicated dishes prepared with fresh and local seasonal ingredients inspired by old food traditions and techniques.

Naustkultur

In 2017 three seafood enthusiasts from Bergen with unique expertise and knowledge in the marine field bought a 30.000 square meter idyllic islet in the outskirts of the city, only reachable by boat. The surrounding waters of the property create a perfect environment for fresh seafood to live and grow: sea urchins, mahogany clams, Norwegian native flat oysters, scallops amongst other delicacies. Having all this world-class produce available at hand these locals wanted to create a unique food-focused adventure with quality, environment and local food traditions in focus. Their vision was to teach others how to prepare fresh seafood outdoors, introduce them to new species which some might not even know was edible; whilst at the same time deliver an excellent dining experience where new and innovative techniques meet old "Naustkultur" traditions.

Cruise through the fjord

Leave the pier by private boat. As you cruise out of the city center you will see Bergen's famous fish market and your captain will share stories with you about Bergen as a gastronomic city. Gliding through the pristine waters witness views to the city fjord, charming inlets and islands, and possibly catch sight of an eagle.

Deserted Island, Norwegian Seafood

Arriving at the island your chef and host give you a warm welcome and introduce you to 'naustkultur'. Learn how to make a bonfire by the shore, forage for some of the ingredients needed for your meal, and hear about Norwegian food traditions. Some of Norway's finest seafood comes from these pristine waters; sea urchins, mahogany clams, Norwegian native flat oysters, and horse mussels, just to name a few. You will try a few of these delicatessens prepared on the bonfire and you are welcome to assist the chef in the preparation and cooking process. Your chef will teach you to open shells, give useful cooking tips and share recipes that you can try at home. There will also be plenty of time to relax and enjoy the serene beauty surrounding the island.

This adventure is the perfect blend of nature, culture and Norwegian food traditions.

Please note: This excursion is not recommended for guests who suffer from motion sickness. The tour involves an approximate 1 km walk to the boat, and a few high steps to embark and disembark the boat; it is not recommended to mobility challenged guests. Walking on the island involves uneven terrain with gradual slopes.

BGO-010 / Threads Of Tradition: A Knitting Heritage Tour

Difficulty

Price: \$159 - Duration: 3.00 hr(s) ~~EST~~ 2:00 PM

If you've ever wondered what knitting machines look and sound like, or how they manage to create socks and scarves on an industrial scale. this unique excursion will answer those questions and more. Just settle in for a scenic half-hour coach drive north from Bergen as we head for the quaint fjordside village of Salhus, and the historic Salhus Tricotagefabrik knitting factory museum.

This sprawling white complex, the dominant feature of the small town's skyline, hummed with activity from 1859 to 1989 and now serves as a working demonstration showplace celebrating Norway's rich textile production heritage. The factory's period atmosphere endures; you can even catch hints of the distinct smells left behind from decades of production.

A captivating short film lays out the history of Norwegian knitting and sets the stage for your guided walk through the factory floor as you learn about the various production stages, from carding and spinning to winding, knitting, and sewing. And watch the machines in action as they make some of the beautifully crafted knitwear you'll see for sale later in the museum shop.

Your visit also includes a relaxing coffee break to enjoy complimentary Norwegian pastries and coffee or tea in the cozy museum café before returning to Bergen \ perhaps with a lovely piece of Norway to bring home with you.

Please note: This moderate excursion includes approximately 1,600 ft / 500 m of walking, periods of standing, and the navigation of one flight of stairs. A small elevator is available for those with mobility challenges. The guided portion of the visit covers two of the factory museum's four floors; the remaining two floors can be explored optionally during free time at the venue. Guests must be able to board the coach on their own, and wheelchair-friendly buses may be arranged by advance request. Wear casual clothing and comfortable walking shoes. The order of activities may vary.

BGO-011 / Bergen by E-Bike

Difficulty

Price: \$119 - Duration: 3.00 hr(s) Start 10:30 AM

One of the most immersive ways to get to know a European city is to explore it by bicycle \ and if you're on a drive-assisted cycle, all the better. This guided e-bike excursion takes to the streets, byways, and hills of Bergen to provide an invigorating introduction to many of its must-see sights and vantage points.

Your e-bike outfitter is just 5 minutes from the pier. In no time, you'll be fitted, geared up, and ready to head out with your guide to explore the 'city of seven hills.' While the exact duration of the ride can vary based on the collective physical capabilities of the group, it typically covers about 6.25 miles (10 km) in roughly 2.5 hours \ with stops taken for photos and awe at key locations en route.

You'll visit the monument to Madam Felle (a heroine of beer lovers everywhere) in Sandviken, catch epic fjord and city overviews along Fjellveien, and pause at the landmark Skansen Firestation (1860) for an unmissable photo op. Coasting by St. Mary's Church takes you back a lot further in history, to around the year 1150, while a spin around the imposing Bergenhus Fortress gives a sense of the political and military power Bergen commanded in the centuries when it was Norway's capital and largest city.

Your cycling survey concludes back at the pier, where you return the gear and get ready to share stories over dinner of the discoveries you encountered while two-wheeling in Bergen.

Please note: This adventurous guided excursion involves about 2.5 to 3 hours of cycling on e-bikes through hilly areas. Total distance covered is approximately 6.25 mi / 10 km. Participants must be in good physical condition and able to comfortably ride a bike. Bring a water bottle and your preferred sun protection; wear comfortable weather-appropriate clothing and flat closed-toe shoes. The duration of the tour may vary based on the group's capabilities, and the list and sequence of sights seen may vary.

BGO-012 / Bergen during WWII

Difficulty

Price: \$229 - Duration: 6.50 hr(s) Start: 10:15 AM

The Norway coast was strategically important to German occupying forces during World War II. This comprehensive guided excursion explores several sites in and around Bergen that were key to the region's challenging \ and often heroic \ wartime experiences.

Bergenhus Fortress & Festning Museum

Your day begins with a short walk from the pier to the grounds of Bergenhus Fortress, the city's landmark bastion used by the Germans as their western headquarters during WWII. On the grounds, pay your respects to the statue of King Haakon VII, the Norwegian monarch who shepherded the country through the difficult war era from exile in the UK. Inside the Bergenhus Festning Museum, explore photographs and film clips showcasing the valiant Norwegian Resistance movement and the bravery of the people of Bergen.

Gestapo Museum

Take a ride by coach to the Gestapo Museum in the heart of the city. The essential story of this chilling venue is told inside its prison cells, where chiseled messages cover the walls from floor to ceiling \ authentic inscriptions left behind by tortured prisoners during WWI, then later by Norwegian traitors and German war criminals locked in the same cells after the war.

North Sea Traffic Museum in Telavåg

After a light lunch of traditional creamy Bergen Fish Soup served at a local restaurant, reboard the coach for an hour-long narrated drive past other war-related sites en route to the North Sea Traffic Museum in Telavåg, a tiny fishing community along the North Sea coast. Locals here played an outsized role in helping the Norwegian Resistance maintain communication with Allied forces in Scotland and coordinate vital supply drops to aid in the fight for freedom. Learn of their bravery and the steep price Telavåg paid for it. After your visit, the excursion's final hour is spent enjoying the watery landscape as we drive back to Bergen.

Please note: This moderate excursion involves about 1 mi / 1.6 km of walking over paved and cobbled surfaces and uneven natural terrain, with periods of standing throughout and stairs to be negotiated at the Gestapo Museum. The excursion is not suitable for those who utilize a wheelchair or have limited mobility. A light lunch of traditional creamy Bergen Fish Soup will be served. Wear comfortable weather-appropriate clothing and walking shoes. Consider bringing sun protection and a rain jacket/umbrella in case needed. This excursion may operate in reverse order.

BGO-013 / Lefse Baking at Øvre-Eide Farm

Difficulty

Price: \$349 - Duration: 3.00 hr(s) Start: 10:00 AM

Tucked away just a few minutes by coach from the heart of Bergen, an idyllic lakeside farm offers the perfect rural escape \ along with a very special experience for those you like to bake, or eat! Join us as we spend the next several hours immersed in the artisanal delights that await at øvre-Eide Farm, nestled by the picturesque Lake Jordal.

Upon arrival, expect to be welcomed by some of the friendly hoofed and horned outdoor residents as you tour the property. Then it's inside for the main act of this day: an immersive, hands-on experience in baking traditional Norwegian sweet lefse, guided by the farm's expert cook. There are countless regional variations on how exactly to flavor these thin, pancake-like flatbreads beloved all over Norway. But the simple tools used to craft them tend to be common \ a potato ricer, long wooden turning sticks, and rolling pins with deep grooves. During this workshop session, you'll learn how to make these delicious treats yourself as you enjoy a couple of hours of camaraderie and a selection of hot beverages, fresh juices, and scrumptious almond cakes made by the farm's own pastry chef.

At the end of your visit, you'll receive a certificate attesting to your newfound baking skills and, of course, be invited to take the lefse you created back to share with travel companions (if you're willing!) after the short drive back to Bergen and the pier.

Please note: This outing involves moderate walking over an inclined gravel path to the farmhouse and back, a total distance of approximately 0.5 mi / .75 km. Expect to also negotiate some steps. The excursion is not suitable for those who utilize a wheelchair or have limited mobility. Wear comfortable clothing and shoes suitable for time spent standing.

Been craving a truly unforgettable travel memory? Consider this one: the privileged birds-eye POV of a flightseeing adventure over one of the Earth's most wondrous regions, Ålesund and the Sunnmøre Alps.

The drive from the pier to Ålesund Airport runs about 15 minutes and is followed by a 20-minute safety briefing and gear-up once at the helipad. Then it's up, up, and very much away.

Once in the air, you'll be able to fully take in the Art Deco beauty of Ålesund from overhead as it spans across Hessa, Aspøya, Nørvøya, Oksenøya, Ellingsøya, Humla, and Tørla islands. Find yourself feeling as if life and time have become suspended, just as you are within this state-of-the-art aircraft piloted by a seasoned professional. And descend gently back to Earth 30 minutes later, feeling elated and perhaps even changed by the experience.

Expect a waterborne journey of about an hour each way by chartered boat. And be prepared for goosebumps; this is truly one of the most magnificent fjords you'll ever see.

The visual thrill won't stop once you arrive in Trandal, either. With some 80 minutes of free time here, you can experience the ultra-famous fjord swing at Christian Gaard, only accessible by boat or via a challenging hike. Have a seat, swing out, and have someone capture the ultimate photo of yourself on the swing with nothing but the dramatically jagged mountains and glistening fjord surrounding you in the frame \ an image no one will quite believe when you show it off at home.

While here, you'll also taste a locally produced aperitif crafted from regional ingredients, accompanied by a delicious local salmon wrap or flatbread. If you like, follow that up with a leisurely walk to drink in still more of this remarkable setting before it's time to reboard the boat for a return journey to Ålesund that's every bit as spectacular as the one that brought you here. Some of our guests have been known to balk at disembarking once at the pier \ but, alas, disembark you must. Until your next visit to the fjordlands, at least.

Please note: This easy activity includes very little required walking, with some discretionary time on foot at Christian Gaard, where there are gravel paths and a slight incline leading to the main venue. This excursion is not recommended for those who utilize a wheelchair or have limited mobility. Wear layered, weather-appropriate clothing and comfortable closed-toe shoes. Vik - Norway

SHORE EXCURSIONS

VIK-A / Flåm Railway and Hopperstad Stave Church

Difficulty

Price: \$329 - Duration: 8.50 hr(s) Start: 8:45 AM

This full-day outing combines the exhilaration of a world-famous mountain railway ride with the intriguing iconography of a medieval Viking, plus multiple waterfalls, idyllic fjordside villages, and more. It begins with a lengthy and wonderfully scenic drive across the lush Vestland landscape and into steep and narrow Flåm Valley. There, you'll enjoy an early buffet lunch before walking to the Flåm train station to begin the thrill ride component of your day.

The famous Flåm Railway is one of the steepest railways in the world, ascending from sea level to 2,700 ft elevation in just 45 minutes \ and offering truly breathtaking views of dramatic cascades, rugged cliffs, and deep ravines throughout the journey. Stepping off briefly at Kjosfossen waterfall, snap some close-up photos and breathe in the splendor of this spot. Ahead is Myrdal Station, where you'll transfer to the Bergen Railway for a second remarkable mountain-crossing journey that skirts dramatic drops and past torrenting rivers to reach Voss, a village where adventure sport is a year-round obsession.

Spend a half-hour exploring here on foot before reboarding your coach for the two-hour return drive toward Vik. And it's a stunner \ winding around sharp bends and through tunnels, traversing the rugged Vika Mountain landscape with panoramas of the Sognefjord and Vik in the distance. En route, stop to admire multi-stranded Tvinde Waterfall as it cascades down the sheer cliff face.

One more landmark remains on the agenda: the spectacular 12th-century Hopperstad Stave Church just outside Vik. Despite being portrayed in fiction as wildly barbaric, the Vikings were key to the spiritual development of early Norway. Exploring the church with your guide, you'll encounter a curious mix of Norse traditions intertwined with classical Christian motifs \ including the dragon heads adorning the structure's steeply pitched roof ridges, meant to ward off evil spirits just like on traditional Viking ships. From here, the pier is just 10 minutes away.

Please note: This moderate excursion involves about 0.6 mi / 900m of walking throughout the day and periods of standing at the visited sites. Guests must be able to board the coaches without assistance. If guests cannot board the train by themselves, a separate ticket for the wheelchair must be ordered (limited availability, in a separate carriage), plus a ticket for their companion. This excursion includes extensive driving. Several tunnels are transited; the longest is approximately 0.62 m / 1 km. Buffet lunch in Flåm is included. Wear weather-appropriate, comfortable clothing, and bring your preferred sun protection and best camera. The order of sights and activities may vary.

VIK-B / Arnafjord by RIB

Difficulty

Price: \$199 - Duration: 2.00 hr(s) Start: 12:00PM

Embark on a journey of a lifetime cruising the emerald green waters of the stunning Sognefjord. After a safety briefing and instructions, you'll suit up in a protective, wind-proof outfit and board your Rigid Inflatable Boat (RIB), setting off on a truly unforgettable adventure. This lightweight, high-performance boat can ideally navigate the varying conditions and bring you up close to nature's surprises, maneuvering through narrow waterways and uncovering hidden treasures.

First, cruise down the breathtaking Arnafjord, a lushly landscaped arm of Sognefjord known for its many cascading waterfalls and lush green sprawling mountain landscapes. Incredibly vibrant in the spring and summer, you'll encounter small farms, including the hill farm Bungane, perched on a mountain ledge almost 500 meters above the fjord.

Next, continue down the most remote arm of Sognefjord, Finna fjord, or hidden fjord known for its lush, nearly untouched nature. Journey across this part of the Stølsheimen Landscape Conservation Area and pass through a small tidal current, experiencing how a fjord system functions with the passing tidal changes. Then, you'll cruise through a narrow straight to come onto what many consider paradise on Earth, Finnabotnen.

Here in this remote, barely touched by modern society wonderland, mountains plunge into the mirror-like fjord, and the only sounds heard are those of the wind, birds, and waterfalls. Far from road access, this spectacular fjord's small farms and magnificent sites are hidden gems few will ever experience. Revel in the peaceful beauty with dramatic steep mountainsides all around \ some of the most beautiful scenery Fjord Norway has to offer. Your RIB returns you to the pier and to rejoin the ship.

Please note: This tour involves a moderate amount of activity and good physical condition, including the physical ability to sustain a fast and often bumpy boat ride, making this tour less recommended for guests with limited mobility and not accessible for guests who utilise walkers or a wheelchair. VIK-C / Fjords & Glacier

Difficulty

Price: \$189 - Duration: 6.00 hr(s) Start: 9:15 AM

Experience the spectacular fjord and ice landscape of Norway firsthand as you visit an arm of the massive Jostedalsglacier and explore the country's award-winning center for glacier and environmental knowledge, the Norwegian Glacier Museum in Fjaerland.

From Vikøyri, a brief 20-minute drive brings you to Vangsnes pier, where you'll board the local ferry for a short but immensely scenic crossing over the Sognefjord to Hella, on the other side. From there, get ready for an abundance of impressive fjordland scenery as your drive continues for about 90 minutes en route to Fjærland Valley. You'll skirt the Norafjorden and narrower Sogndalsfjorden, pass through the Sogndal Valley, and traverse two tunnels cut straight through the mountains \ witnessing a landscape sculpted by glaciers over several million years and through successive ice ages.

Stopping at Bøyabreen, an optional short walk allows you to see an arm of the mighty Jostedalsglacier up close. Bøyaglacier is a prodigious icefall capable of crawling up to 6 ft / 2 m a day, making it one of the fastest-moving glaciers in Norway. That constant motion leads to frequent "talking" \ the audible rumbling heard as the ice shifts down the mountainside. A visit to the Glacier Museum will deepen your understanding of how this wondrous landscape of glaciers and fjords was created, how it has evolved over eons, and how climate affects its behavior today. As architecturally fascinating as it is packed with glaciological exhibits, this award-winning venue even allows you to interact hands-on with 1000-year-old ice from nearby Supphellebreen.

A coffee break in Brævasshytta will warm you up at the outing's midpoint, and the return by coach and ferry retraces the same route \ its terrain now more understandable thanks to the new knowledge you've just acquired.

Difficulty

Price: \$179 - Duration: 5.00 hr(s) Start: 10:30 AM

Few natural landscapes on Earth are more dramatic than those awaiting you on this easy coach excursion that traverses the peaks and valleys of Norway's Vestland region. Soon after departing the port, you'll be immersed in a setting torn straight from the pages of a storybook.

An overlook stop reveals panoramas of Vik and the Sognefjord below that will take your breath away as you cross the Vikafjellet mountain plateau and descend into Myrkdalen valley, a rich agricultural region known for its summer farms and luscious goat cheeses. Some 75 minutes into your scenic journey, the Tvindefossen waterfall appears ahead \ its cascades of mountain water tumbling down in multiple streams to create a striking natural spectacle. Step off the coach here to listen to the sound, feel the mist, and breathe in the beauty for a few minutes.

Further on, enter the Nærøy Valley, its rugged cliffs and sheer rock faces shaped by glacial activity over millennia. VIK-F / Vik on Foot (INCLUDED)

Difficulty

Duration: 2.00 hr(s) Start: 9:00 AM, 12:45 PM, and 1:45 PM

On the southern shores of the Sognefjord, one of the longest fjords in the world, find the hidden gem of Vik or Vikøyri (population 2800). Awe-inspiring vistas and natural beauty surround this town, which stands as a symbol of Norway's rich fjord culture and heritage. Vik was a center of power in the Viking Age due to its location on the Sognefjord with its rich vegetated bays and vast fishing waters.

This fascinating walking tour takes you through the charming beach dweller settlement, stroll between its picturesque homes and boathouses. Walk past burial grounds and arrive at the region's oldest stave church - a structure that showcases Norway's contribution to world architecture. Stave churches bear much resemblance to past Norwegian ships, a testament to the country's long-standing excellence in shipbuilding. Ornaments such as dragonheads and serpents are found on the buildings' steep roofs, placed there to frighten the evil spirits away.

The richly decorated, wooden Hopperstad Church features intricate architectural details and carvings and was built in 1130 during the Middle Ages conversion from Norse mythology to Christianity. Your visit here, surrounded by towering trees, offers a glimpse into the town's past and the rich Scandinavian history that developed this region. After completing your visit, walk back through Vik to the pier, taking with you a knowledge of the tradition, culture, and handicrafts that mark Norway's culture.

This moderate activity excursion involves approximately 4 kilometers (2.5 miles) of walking mostly on paved terrain with some inclines and then declines. VIK-G / Mountain Panorama and Norwegian Hydro Power (INCLUDED)

Difficulty

Duration: 3.50 hr(s) Start: 9:15 AM and 1:15 PM

Some 90% of all electricity produced in Norway comes from hydropower, and this intriguing excursion follows the journey that mountain water above Vik village takes as it passes down through multiple power plants to eventually reach the fjord below \ producing green energy at each step. Over a few hours, you will not only view the majesty of the fjordland mountainscape but gain insights into the network of watercourses, dams, pipelines, and power plants that transform an abundant liquid resource into a sustainable power source.

The explorations begin with a 30-minute coach drive from the shore of the Sognefjord \ up into a beautiful valley and a stop to tour the Refsdal Power Plant via a 0.5 m / 750 m walk from the parking area. In operation since 1968, Refsdal's two turbines utilize the steep drop of water from Målsetevatn and Kvilesteinsvatn reservoirs, along with outflow tunneled in from another power plant further upstream, to generate an annual output of 421.3 billion watt-hours of electricity. That's a lot of juice.

After walking back to the coach, your drive continues along the stream of production to stop by Målset Power Plant, positioned further up the mountain at the top of the 3-plant chain \ with Refsdal in the middle and Hove Power Plant at the lowest point along the Vikja watercourse.

The next half hour or so brings you to Vikafjell mountain to catch some especially stunning Norwegian mountain scenery \ and see the lakes that feed these hydropower plants \ and on to Storesvingen, known for its fine views of Vik and your ship on the fjord, if the weather cooperates. Getting closer to the end of your hydro-saga, you'll stop for outside views of Hopperstad Stave Church, a remarkably restored landmark structure dating back to 1130. From there, it's just another 10 minutes to the pier.

Please note: This moderate excursion includes approximately 1.05 mi / 1.7 km of walking, including over natural surfaces with inclines at Refsdal Power Plant. The activity is not recommended for guests who utilize a wheelchair or have limited mobility. Wear weather-appropriate clothing and good walking shoes; bring your preferred sun protection.
